- **Interruttore**
- **Montaggio a parete**
- **IP20**
- **Lampade non incluse nella confezione**

Less is more! The luminaires of the VANNES series impress with their simple and timeless design. With the matching filament lamps, the modern living style is ideally complemented and rounded off. Correctly positioned, the luminaire ensures optimum lighting conditions in every part of your home. All doors are open to you when choosing the illuminant, because, thanks to the design in matt nickel, combinations with transparent or even smoke-coloured illuminants are possible. The use of an LED light source is recommended for energy-saving lighting. These are an excellent alternative to conventional halogen lamps and represent a high quality of light together with energy savings of up to 80%. With LED lighting, you also benefit from a long service life and low heat generation, while at the same time protecting the environment.
