That certain something with the FERNANDEZ rechargeable luminaire. The battery operation of the table lamp allows flexible placement without any cables wherever a cosy lighting atmosphere is needed. The lamp is charged via a discreetly designed charging station. The mobile table lamp, which looks great on a garden table or on a dresser in your living room, has a 4-fold touch function that regulates the light in 3 brightness levels. In addition, infinitely variable adjustment of the light colour is possible. As the FERNANDEZ has IP44 protection, it is protected against splashing water and can therefore also be used outdoors. The reduced design in classic form makes the table lamp in white matt an adaptable decorative element. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
