The NESTOS outdoor luminaire provides the necessary safety around your house and unfolds its full effect in the dark. The striking design radiates the light evenly into the outdoor area, so that an effective and pleasant light intensity is achieved. Due to the given protection class IP54, the luminaire is protected against splashing water and is perfectly suitable on your house facade or on the wall of your terrace as well as your balcony. The outdoor luminaire consists of a high-quality die-cast aluminium in anthracite as well as a white, cuboid-shaped light body made of plastic. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
